1 General information and going concern

Tethys Petroleum Limited is incorporated in the Cayman Islands and the address of the Company's registered office is One Nexus Way, Camana Bay, Grand Cayman, KY1-9005, Cayman Islands. Tethys is an oil and gas company operating within the Republic of Kazakhstan. Tethys' principal activity is the acquisition of and exploration and development of crude oil and natural gas fields.

The Company has its primary listing on the TSX Venture Exchange. The Company is also listed on the Kazakhstan Stock Exchange ("KASE").

Going concern

Management and the Board has considered the Company's current activities, funding position and projected funding requirements for the period of at least twelve months from the balance sheet date in determining the ability of the Company to adopt the going concern basis in preparing the condensed consolidated interim financial statements for the six months ended June 30, 2021. The Company reported a loss of \$0.9 million for the period ended June 30, 2021 (year ended December 31, 2020: \$38.5 million loss) and an accumulated deficit as at that date of \$403.4 million (December 31, 2020: \$402.6 million) and negative working capital of \$12.7 million (December 31, 2020: negative \$11.8 million). In addition, the Company reported cash used in operating activities after tax paid of \$1.4 million for the period ended June 30, 2021 (year ended December 31, 2020: positive cash from operating activities of \$17.5 million).

The Company's financial position has improved as a result of the Company's loan obligations being restructured, repaid and/or converted into Tethys ordinary shares during the prior year. Borrowings have reduced from \$40.2 million at December 31, 2019 to \$6.0 million at June 30, 2021.

In addition, a settlement agreement was signed with Olisol Petroleum Limited ("Olisol") and DSFK Special Finance Company LLP ("DSFK") to resolve all disputed matters with those parties. In April 2020, the Company announced that it had completed the issuance of a \$4.8 million convertible debenture and received the proceeds which were used to make the settlement payment to DSFK, reduce debt and for general working capital purposes. An unsecured loan of \$2.5 million was received from the same lender in October 2020.

A private placement of \$1.4 million was completed in April 2021. These proceeds have been used to fund previously incurred drilling expenses, 3D and 2D seismic expenses as well as general and administrative expenses.

Nevertheless, the Company may not have sufficient funding to fund its obligations for the next twelve months and may need to raise funds to meet any shortfall and to fund its planned capital expenditure program.

There are factors relating to the ongoing COVID-19 pandemic that could impact the business. Possible adverse effects from the Covid-19 pandemic could include lower oil & gas prices received by the Company due to lower demand for oil & gas, customers not paying for oil & gas delivered, planned oil & gas development activities becoming uneconomic due to lower prices, difficulty in obtaining future financing, failure of suppliers who are no longer able to supply goods and

Notes to Condensed Consolidated Interim Financial Statements (unaudited) (continued) (in thousands of US dollars)

services and employees becoming unavailable due to sickness or quarantine measures. However, the Company's oil & gas operations are in a remote region of Kazakhstan and the Company is taking precautions to prevent personnel from becoming infected and to identify infections at any early stage should they occur. The Company has not suffered any significant adverse effect from Covid-19 and, at this time, does not anticipate Covid-19 will have a material impact on the Company's operations over the next twelve months.

In order to support the Company's short term liquidity position and improve the Company's financial situation, we will need to:

- Obtain the necessary approvals to re-commence commercial oil production from the KBD-02 ("Klymene") well;
- Secure funding required to meet capital expenditure plans to the extent that these cannot be funded from existing cash generation.
- Drill new oil & gas wells to increase production levels and revenues and in particular, further develop the Kul-bas exploration contract area which includes the successful KBD-02 well.

The Company's ability to continue as a going concern is dependent upon its ability to secure and deliver the above-described additional funding required to meet its planned capital expenditure program including its contractual obligations, and ability to generate positive cash flows from operations. These circumstances indicate the existence of a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported revenues, expenses and balance sheet classifications that would be necessary if the Company was unable to realise its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2 Basis of preparation and accounting policies

The condensed consolidated interim financial statements of the Company are prepared on a going concern basis under the historical cost convention except as modified by the revaluation of financial assets and financial liabilities at fair value through profit and loss and are in accordance with International Financial Reporting Standards ("IFRSs") issued by the IASB and IFRIC interpretations issued by the IFRS Interpretations Committee and effective or issued and early adopted as at the time of preparing these condensed consolidated interim financial statements.

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" as applicable to interim financial reporting and do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the annual consolidated financial statements reported for the year ended December 31, 2020.

The condensed consolidated interim financial statements are presented in United States Dollars ("\$").

New accounting policies

There were no new and revised standards adopted by the Company during the six months ended June 30, 2021 that had an impact on the condensed consolidated interim financial statements.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are no significant new or amended standards that have been early adopted by the Company.

3 Segmental Reporting

Geographical segments

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. Reports provided to the Board of Directors with respect to segment information are measured in a manner consistent with that of the condensed consolidated interim financial statements. The assets and liabilities are allocated based on the operations of the segment and for assets, the physical location of the asset.

The Board of Directors consider the business from predominantly a geographical perspective and the Company currently operates in two geographical markets: Kazakhstan and Rest of World ("Corporate").

In Kazakhstan, the Company is producing gas from the Kyzyloi and Akkulka fields and is undertaking exploration and evaluation activity in the Kul-bas field. In the current quarter the Company started producing oil from the Kul-bas field for the first time. The Company also operates a Corporate segment which provides loan funding for development activities in Kazakhstan.
